COMBINATION CODE LOCK INSTRUCTION

HOW TO SET YOUR OPENING COMBINATION

You can set your own personal combination by following these instructions:

The opening combination is pre-set at 0-0-0-0

1. Turn the dials to the pre-set combination 0-0-0-0
2. Move the reset button to position A as shown in picture 1
The reset button is inside, on the back of the lock mechanism
3. Turn the dials to set your desired combination
4. Move the reset button to position B as shown in picture 2

The lock will now open to your own combination
Write down your code and store it in a safe place
